~ 2008: Keewaydin's 116<sup>th</sup> Season ~

A big full camp this summer with 178 campers and 60 staff making up 20 sections translated into thousands of photos to sort through; photos of high adventures in remote wilderness, of fish, and fowl and everything in between. The remarkable pictures are the faces of everyone as they experience the northern woods, travel the portages and paddle the lakes and rivers. Sometimes these faces were a little damp; let's be honest, it was a very wet summer and the photos back it up. But the rain did not wash away fun. Instead, it made for high water, big rapids and no worries about forest fires.

With 54 girls in 6 sections, including the third girl's trip to Hudson Bay, we marked the tenth anniversary of girls on Devil's Island. This program is solid as we have grown from 16 three-week campers in that first summer to our current status and we hope to keep growing until the girl's program equals the boys in depth and breadth. Happy Birthday girls and we are looking forward to many more!

Two sections traveled through northern Quebec to Hudson Bay this summer: Section A followed the Little North River into Richmond Gulf and on to the settlement of Umiujaq and Section 1 traveled the Coats and the Great Whale to the settlement of Kuujuarapik/Whapmagoostui. Both trips were seven weeks in length and traveled lakes and river systems where human presence is infrequent and wildlife dominates. Aside from the pilot who flew the re-outfit plane, these 2 sections only faced themselves and the wilderness, forging bonds that time will deepen and hone, and created memories of an unforgettable experience. Section B traveled further south in Quebec on the Sakami River.

The Outpost sections were overflowing this summer with 34 campers in Sections D, E, F and G. This remains one of our most popular programs where the tripping is superb and the wilderness intact. Section D continues its search for a new Outpost, working northward from Savant Lake to the Pipestone River region. The goal continues to be a search for a location for a second outpost cabin so that we can preserve and expand our Outpost offerings.

Paddle-in day on August 9 was marked by great numbers of parents reuniting with children and campers re-connecting with old section mates and a tiny bit of rain at the final campfire. But once again the rain had little effect on the flames of our fires and the trip stories were funny, insightful, poignant and extremely moving.

I could go on for a few more pages about the brilliant summer of 2008. But instead I will let the pictures do the talking. Enjoy your yearbook and I look forward to seeing everyone back on Devil's Island in 2009.

Bruce
